SCHOOL REPORT.

In presenting again the annual report of our schools, it gives us pleasure to be able to say that, with hardly an exception, the schools of the town have enjoyed a year of general prosperity.

We feel it to be our highest duty to employ the services of such teachers as are best adapted, by natural qualifications and education, to manage and instruct our schools, and whenever we have succeeded in doing this we feel that our efforts in behalf of the schools have been successful.

Teachers who intend to follow teaching as a business should spare no time or reasonable expense in preparing themselves for the work. They should be able to teach the higher English branches as well as the lower, and to give instruction in a practical and business-like manner. Such teachers are and always will be in demand. Parents should not condemn teachers or denounce them publicly or privately, before they have visited the school and satisfied themselves from personal observation that the evils complained of have some foundation in fact. They should not form hasty opinions from hearsay evidence of their children, who are not always impartial witnesses in school matters to say the least.

To the teachers of the past year we express our grateful thanks for their earnest, faithful efforts for the welfare of the children under their charge; and also to those parents who, by their co-operation, have seconded our efforts in behalf of education.

So far as the text book law is concerned our labors have been very much less this year than last, but we still realize that the law causes the School Board much inconvenience.
